

**For all
of you,**
who keep
the machine
running.

**Organising
the hope.**

Die Linke

Let's organise the hope for Rhineland-Palatinate together. With the Mietwucher-App, the Nebenkostenrechner and Linke Hilft we are already making your life more affordable and offer support for your problems. We challenge the rich and ensure that people, who keep the machine running, are no longer under pressure and don't have to finance everything themselves. We want to change instead of govern – together we will create a juster society and more solidarity.

Less rent. More to live.

Habitation is a human right, but rents are increasing, social housing is vanishing and the cost of construction is exploding. The profits of rental corporations are prioritised and more and more people can't even afford basic housing anymore. By 2030 more than 30.000 social housing units will be missing in Rhineland-Palatinate! At the same time, many flats are unoccupied. The market isn't solving this problem; it is intensifying it. Housing must not be an object of speculation, it has to be a public duty.

Waiting for 6 months isn't healthcare!

Health is no tradable good! Yet privatisation, case rates and cost pressure have undermined health care. Hospitals are closing, caregivers are overworked and rural regions are cut off from health care. While companies

make a profit, humanity is falling by the wayside. Health is of general interest and belongs to the public sector.

Against the right-wing movement. To the barricades!

The swing to the right is threatening our democracy and solidarity. Right-wing smear campaigns divide and fuel hate, while policy often looks away. We consistently stand against antisemitism, racism, nationalism and every form of misanthropy. Antifascism is the foundation of a free and solidary society.

You can find all our topics and our program for the Landtagswahl following the link or by scanning the QR-Code:
